Projects

Imagify (Individual)   **(Source Code)**
React | Node | Express | MongoDB | Stripe | Stability AI | Tailwind | JWT
Imagify is a full-stack MERN application that converts text into images using Stability AI's text-to-image generation. It also features Stripe integration for secure payments on premium image generation.

BookSphere (Individual)   **(Source Code)**
Spring Boot | React | JWT | Tailwind | MySQL | MUI
Developed a responsive web application for browsing, purchasing, and managing books. Features include genre-based book browsing, detailed book views, cart management, checkout process, order summary, order confirmation, and profile viewing.

Flower Paradise (Individual)   **(Source Code)**
React | Node | Express | MongoDB
Built a custom flower bouquet ordering website with an intuitive frontend for a seamless shopping experience and a robust admin panel for efficient inventory and order management.

PinkPearl (Group)   **(Source Code)**
PHP | HTML | CSS | MySQL
Collaboratively built a full-stack website for a women's fashion boutique, including product catalogs, user account management, order processing, and an admin panel for efficient management.

Notes App (Individual)   **(Source Code)**
React | Node | Express | MongoDB | JWT
Developed a dynamic notes app for adding, editing, deleting, and searching notes, ensuring a seamless user experience.
